ABBYY

PDF Transformer™ 2.0 Pro

Powerful PDF Conversion and Creation Made Easy

ABBYY PDF Transformer 2.0 Pro combines both PDF conversion and PDF creation functionality in a single utility. It accurately transforms any type of PDF file into editable formats with a single mouse click. The product also features one-click PDF creation from within Microsoft® Office applications. PDF Transformer is the only PDF utility in its class that converts image-only PDF files, generated by scanners and MFPs, into searchable PDF files. This efficient program precisely retains layouts and formats of the original documents. With a user-friendly interface, PDF Transformer gives users flexibility in converting and creating PDF files without training.

Comprehensive PDF Conversion and PDF Creation

PDF Transformer 2.0 Pro combines two utilities in a single package, offering PDF conversion and PDF creation. This high-productivity software lets users transform PDF files into editable formats and create searchable PDF documents from within Microsoft Office applications.

One-click Processing

PDF Transformer 2.0 Pro provides a quick tool to work with PDF documents. Simply convert PDF files into editable documents or instantly turn an office document into a PDF file with a click of the mouse.

Open ANY Type of PDF File

PDF Transformer 2.0 Pro processes any type of PDF file, including scanned PDFs, searchable PDFs, password-protected PDFs, PDFs with text in curves and PDFs with text in non-standard encoding. PDF Transformer 2.0 Pro instantly converts any PDF file into an editable format while preserving the original layout and formatting.

Create PDF Files Directly from Microsoft Office Applications

PDF Transformer 2.0 Pro is fully integrated with Microsoft Office. Create a PDF file directly from within a Microsoft Word document, Excel® table, PowerPoint® presentation or Visio® diagram. The PDF file can also be saved or sent as an e-mail attachment without launching PDF Transformer.

Turn Scanned PDFs to Searchable PDFs

PDF Transformer 2.0 Pro is the only PDF conversion utility in its class that allows users to translate any scanned PDF images, generated from a scanner or multi-function peripheral (MFP), into searchable PDF documents.

Create Secured PDF Files

PDF Transformer 2.0 Pro supports the latest PDF security settings. The solution allows users to set permissions to restrict certain operations, such as printing, extracting content, editing and adding/removing pages.

Save Internal Links and Hyperlinks in Output Documents

When converting and creating a PDF file, PDF Transformer 2.0 Pro automatically preserves all internal links and hyperlinks from the original document and reconstructs them into an output file.

User-friendly Interface

PDF Transformer 2.0 Pro features a new view-style interface. It gives users the flexibility to look through the entire PDF document and/or select desired pages or areas prior to starting the conversion process. The program also provides additional tools that allow users to manually select the conversion areas and block types in PDFs with complicated layouts.

Product Benefits

Easy to Use

With a single mouse-click you can convert PDF files to editable documents or turn an office document into a searchable PDF file. The easy-to-use interface allows conversion and creation tasks to be completed quickly.

Quick

When converting PDF documents PDF Transformer is two times faster than the previous version of the product. The new product transforms PDFs with layout retention, with no need to retype or reformat the document.

Accurate

When converting PDFs to office documents PDF Transformer Pro 2.0 is up to 30% more accurate than the previous version of the product.

Flexible

Processes all types of PDF files, including image-only PDFs generated from scanners, MFPs or digital copiers.

Cost-effective

With two utilities in one, ABBYY PDF Transformer 2.0 Pro is the right choice for your routine PDF conversion and PDF creation tasks.
